

Weekly Coal Production

Production for Week Ended
July 21, 1984

See Notice
Inside Cover

Contains Supplementary Data

IMPORTANT NOTICE

As required by Government regulation, the Energy Information Administration (EIA) is conducting its annual publications mailing list review. If you are on the EIA mailing list, you should have received an important postcard. You must return it to us to remain on the EIA mailing list. If you have not received the postcard, please contact the National Energy Information Center at 202-252-8800.

Note: This notice does not apply to subscriptions which have been purchased from the Government Printing Office (GPO).

Preface

The WCP

The *Weekly Coal Production* (WCP) provides weekly production estimates of U.S. coal by rank, as well as supplementary data which are published twice a month. Supplement 1 includes monthly statistics on U.S. coal production and aggregated annual historical data on coal supply and demand, consumption, stocks, imports, and exports. Supplement 2 contains monthly data covering electric utility coal consumption, stocks, and receipts; and coal imports and exports.

This report is prepared by the Coal Division; Office of Coal, Nuclear, Electric and Alternate Fuels; Energy Information Administration (EIA) to fulfill its data col-

lection and dissemination responsibilities as specified in the Federal Energy Administration Act of 1974 (P.L. 93-275) as amended. *Weekly Coal Production* is intended for use by industry, press, State and local governments, and consumers. Other reports that may be of interest are the quarterly *Coal Distribution Report* and the *Quarterly Coal Report*.

General information about this report may be obtained from Robert Harris, Chief, Data Systems Branch (202/252-2982). For specific information regarding the preparation and contents of this publication, contact Leonard Westerstrom (202/252-5220) or Judith Wood (202/252-5228).

Highlights

Production of bituminous coal and lignite in the week ended July 21, 1984, as estimated by the Energy Information Administration, was 18,586,000 short tons. This was an increase of 1,808,000 short tons or 10.8 percent from production in the previous week. Production in the corresponding week of 1983 was 14,148,000 short tons. Bituminous coal and lignite production from January 1 through July 21, 1984 totaled 498,685,000 short tons, 19.3 percent above production in the same period in 1983.

Production of Pennsylvania anthracite in the week ended July 21, 1984, as estimated by the Energy Information Administration, was 95,000 short tons, 9,000 short tons or 10.5 percent more than production in the previous week. Production in the corresponding week of 1983 was 77,000 short tons. Anthracite production from January 1 through July 21, 1984 totaled 2,186,000 short tons, 7.3 percent above production in the same period in 1983.
